### Bug Fixes

---

- [DST-13423] AWS Test deployment isn't truly successful
- [DST-13498] UnMerge fails when the user deletes a disability or adjustment prior to Unmerge

- [DST-12855]** Create Event Screen Shows Mandatory Warning for Non Mandatory field: Conviction Date
- [DST-13556]** Navigation Menus and All Contact - Justification of Sub Menus
- [DST-13431]** Update (End dated) Address: Missing tooltips for 'End Date' and 'Type' and incorrect tooltip for 'Type Verified'
- [DST-13563]** Infinite Scrolling - Print Button - Verbose and standard tooltips incorrect to AC
- [DST-13550]** Searching on invalid format CRO or NI number and adding new person, saves the value (without the user seeing it)
- [DST-13549]** CAS API for pre sentenced event, Case Allocation Date is set when it shouldnt be, so even though the CAS Decision is 'Not Assessed' the 'Manual or Automatic?' field shows as Automatic
- [DST-13591]** Missing grant for new table table R\_APPROVED\_PREMISES\_TEAM
- [DST-13570]** All Contacts screen: (with Chrome browser) Using either of the 'Page Down' keyboard buttons, scrolls down the screen, but once the button is released the user is back at the top
- [DST-13571]** All Contacts screen: Add Contact and use Update button, screen remains as Add Contact and if Update pressed again APPERR031 results
- [DST-13584]** All Contacts Printed output doesnt show CRN, person name or any filters that were applied .
- [DST-13566]** National Search : Introducing a 'Date of Birth' into a Search with a valid PNC number present gives an error, when no error was expected
- [DST-13565]** Contact List sub-menu; Cohort and Terminate Event options removed from Event List when Contact List sub-menu is opened
