

## Release Notes

### Version ND 5.8.5

#### New Features

---

- [DST-14713] 6A: Testing Only - Free Text Search screen - child contact to also be included in the Free Text Search
- [DST-14826] PDM - Create an ND Parameter for the Create a Recall URL
- [DST-14852] PDM 28.17

#### Bug Fixes

---

- [DST-14831] Merge Microservice; Merge fails if CONTACT or NSI.EXTERNAL\_REFERENCE contains alpha characters
- [DST-14801] Child RAR contact is not created if the RARNSI contact type is set as Attendance contact= Yes, RAR Activity Recorded: = Yes (No, No works fine)
- [DST-14707] Domain Event for OGRS Score Notification: Assessment Date format doesnt match the story
- [DST-14833] Domain Event for Institutional Report; various differences in specified MESSAGE\_BODY
- [DST-14836] Domain Event for Institutional Report; CRN and NOMS in MESSAGE\_BODY refer to Source and not Target Offender
- [DST-14834] Domain Event; NOMS personReference included as NULL in MESSAGE\_BODY when Offender doesn't have NOMS recorded

#### Problems

---

- [DST-14591] PR241 INC2051855 IM receiving RAR Referrals as Unknown Programme

#### Scripts

---

**[DST-14753]** Create a reusable script to add permissions to selected users

**[DST-14795]** Script to cleanup duplicate NSI external\_reference values
