Bug Fixes

- [DST-18412] 'Disabilities and Adjustments' screens: The content of the Additional Needs notes box is auto blanked out after Save (with the exceeded error) then Update
- [DST-18485] Tooltips on Update Disabilities page are incorrect
- [DST-18359] Throughcare - Update/Undo Release screen - Queries
- [DST-18358] System Parameters Maintenance: Tabbing and focus
- [DST-18408] 'Disabilities and Adjustments' screen: 'Additional Needs' notes allows more than 200 characters, Save errors but Update allows the save
- [DST-18373] Add Template; APPERR031 when validation message corrected and re-upload is attempted
- [DST-18395] Any Changes Popup displayed on Add Person screen when no changes have been made
- [DST-18407] 'Disabilities and Adjustments' and 'Equality Monitoring' screens: Layout and format of Questions/headings
- [DST-18415] Update Equality Monitoring: Shortcut Alt Shift and 1 doesnt take the user to the first field (after Update has been pressed)

- [DST-18420]** Disabilities and Adjustments screen: An empty Page 2 remains after pressing the Hide button for end dated disabilities or adjustment
- [DST-18431]** File Upload; APPERR031 displayed if Document being uploaded doesn't have a File Extension
- [DST-18438]** NSI Caseload (Bulk Transfer); Status column rendered as "Non Statutory Intervetion"
- [DST-18461]** Register Summary - Add Filter by Register Type - Flag Column Sort Issue
- [DST-18479]** Unmerge fails when the content of field ASSESSED_BY in OASYS_ASSESSMENT table is greater than 35 characters
