Bug Fixes

- [DST-19789] UPW Worksheet Summary - all page buttons trigger validation messages when they shouldnt
- [DST-19796] Disallow Creation of Breach Notice - no home area or pre-sentence event - Minor issue with message
- [DST-19804] SAR Registration removal: Section for Registrations is missing the 'NO_INFORMATION_RECORDED' if there are none left to show
- [DST-19783] Update UPW Appointment - Field warnings do not appear under their corresponding fields
- [DST-19809] Login: authentication error page not displayed for invalid credentials
- [DST-19795] Court & Institutional Report Deep Link; not all Event Details menu options are displayed in the Navigation Bar
- [DST-18702] Add Institutional Report - Provider is changed during Automation tests

Scripts

[DST-19236] 3b. UPW Suspend Status - RBAC Script
