- [DST-13765] PDM 28.04
- [DST-13137] Disabilities - PDM Change

Bug Fixes

- [DST-13709] The All Contacts screen - User is returned back to row selected if row 50 or under, even after applying sort
- [DST-13762] Script to re-sync Previous Conviction Documents and CPS Packs - Change to AC required
- [DST-13411] APPERR031 after adding a court appearance
- [DST-13619] Create New Event - APPERR031 displayed if date fields are blank
- [DST-13448] APPERR031 when adding new event
- [DST-13340] 504 error page after clicking Save button trying to save new event
- [DST-13070] Last Update By - Bug discovered whilst testing DST-12553
- [DST-13061] Address with a Type of Main displayed in Address History - Bug discovered whilst testing DST-12553
- [DST-13680] Without CLBT002, Contact list in Nav pane does not take me to the contact list screen.
- [DST-13752] All Contacts View - IWP template, criteria in the Sensitive column
- [DST-11565] Error when editing "Recall" on the "Add Return To Custody" page

- [DST-13710]** Address History: Sorting on Type when there are some rows without a Type, arent grouped together as expected and one more sort can result in APPERR031
- [DST-13415]** Code Review - RegisterType incorrect entity relationships
- [DST-13728]** All Contacts screen: Scrolling past 50, selecting a view link and returning, the user is back to the top
- [DST-13577]** All Contacts screen: After a successful scroll/page down, if the user views another App and immediately returns to the ND page, the user is at the top again. (UPDATE only failing now for a scroll which is less than the 50 rows)
- [DST-13529]** Respond By field not rendered on Update UPW Appointments
- [DST-13707]** UpdateTemplate: Filename removed from Upload Template field when Invalid File Type error message displayed
- [DST-13730]** Drugs History; results list restricted warning message not displayed until Filtered Search button pressed
