

Release Notes

Version ND 5.7.14

Bug Fixes

- [DST-14341]** Deletion of Additional Identifiers - Add call to new Stored Procedure - Warning Message not shown
- [DST-14364]** deleteOffenderMergeHistory stored procedure not returning errors when parameters are not passed in / null
- [DST-14520]** Update Address Assessment; Dirty Screen check not performed if Warning already cancelled
- [DST-14467]** Address Search Results; returned results order inconsistent navigating from Address Details screen
- [DST-14468]** Address Search Results; returned results order inconsistent returning from View Address Details screen
- [DST-14354]** CAS SP: When a valid event number is provided, an error is reported
- [DST-14516]** View Address Details; Confirm button defined as Default rather than Primary button
- [DST-14519]** Update Address Assessment; no error message displayed if Address has "NF1 1NF" postcode but NFA is No and Check Address is pressed
- [DST-14463]** Address Search Results; Pagination Controls not working if Row Numbers are used
- [DST-14517]** Following a successful Merge, the Target Offender displays an Immigration number in Equality Monitoring screen when it shouldnt (the AI row responsible is soft deleted)
- [DST-14355]** CAS SP: When the event number is null, the SQL is processed, but no update can be found in the CAS screen in ND
- [DST-14458]** View Address Details; associated Documents are not being displayed
- [DST-14455]** View Address Details; Address Assessments not sorted in Date order by default
- [DST-14459]** View Address Details; Address Assessments not sorted into correct order for Team column
- [DST-14470]** Drug Testing - Delete Event - Drug Test - SAR Download still has the attached doc

Problems

[DST-13906] INC1943523 PR230 - Multiple entries showing in Event list due to duplicate CAS

[DST-14337] WIP Flag on Deleted Documents
