

## Release Notes

### Version ND 5.7.11

#### New Features

---

- [DST-13905] National Search - Message to display if duplicate NOMS Number
- [DST-13813] New Address Search - Addition to screen to identify that in a Beta phase
- [DST-14060] Create OFFENDER\_DELTA entries for CONTACT changes
- [DST-13481] Database Stored Procedure - Delete Additional Identifiers if they exist in Merge History
- [DST-13463] Deletion of Additional Identifiers - Add call to new Stored Procedure - Ndelius

#### Bug Fixes

---

- [DST-14285] Update Address Assessment - Displaying Confirm/Cancel/Document button
- [DST-14267] After selection of the Registration Review icon, viewing a row then selecting 'Return', the 'All Teams' filter is now set to 'No'
- [DST-13460] Unmerge: Error reported if the Additional Identifiers on the Target have been deleted (after the Merge)
- [DST-14010] Add Person - Having searched on NOMS number (which has previously been assigned) then Add Person, the Identifiers section is populated when the story states not to
- [DST-9840] Update Drug Testing Referral: Selecting a different Event and Saving isnt reflected in the Drug Test History screen or the Contact List screen
- [DST-14261] No end date for NSI Breach but it still sends breach concluded event type SNS message queue
- [DST-14266] Response By - Update Contact Screen - Issue with Date before Sys Date Validation

#### Problems

---

- [DST-13670] SN 1902520 PR224
