### Bug Fixes

---

- [DST-16019] Heads of PDU and Deputies; data not filtered by previous selected Provider
- [DST-15964] JSF Conversion of Event List Section - Differences in available fields between ST10/11 & ST9
- [DST-15990] JSF Conversion of Event List Section - New Event - Multiple Issues
- [DST-16040] JSF - Reference Data screens - Some screens showing 10 options rather than the expected 20
- [DST-16059] Inter-area Order Supervisor Transfer Details; various JSF Upgrade issues
- [DST-16050] JSF: An empty record message is missing on the Cohort Details page.
- [DST-16037] JSF: Add Court Appearance/Delete Court Appearance, the header isnt refreshed to reflect the new remand status/outcome/event termination

- [DST-16024]** JSF: Add Court Appearance : Validation appears against Appearance Date instead of Conviction Date (when Appearance Date IS populated)
- [DST-16023]** JSF: Add Court Appearance : Appearance date can be in the future with an outcome, when there should be an error
- [DST-16025]** JSF: Add Court Appearance : When conviction Date is greater than today APPERR031 results
- [DST-15925]** Recently Viewed; empty Data Table message not displayed when screen opened for new User
- [DST-15995]** National Search; APPERR031 issued if User only has 1 selectable Dataset
- [DST-15902]** JSF: Personal Circumstances - Various issues
- [DST-16033]** JSF: Equality Monitoring Screen - Issues with New MC / New PM
- [DST-16038]** JSF: Various issues in the information bar fields.
- [DST-15913]** Date of Death pop-up; focus is not set within the pop-up and therefore the keyboard cannot be used
- [DST-15999]** Conversion of - User preferences - Colour Preferences - Multiple Issues
- [DST-16003]** Colour Preferences; Pagination background colour overlays other pagination colour preferences.
- [DST-16078]** Move NSI; Events with no Length are displayed as an empty bracketed expression
- [DST-16046]** NSI Caseload; various JSF Upgrade issues
- [DST-16043]** JSF Conversion of - Offender Index - Address - Resume Address screen missing CRN Details Header
- [DST-16049]** JSF - Filter issue on the Event List screen
- [DST-16047]** NSI Bulk Transfer; screen not rendered properly and app becomes inoperable
- [DST-16077]** Add Exclusion; Confirmation message screen allows User ID to be amended and searched for
- [DST-15552]** Update Referral Source; Last Touched fields do not inherit the User's Colour Preferences

## Problems

---
