Bug Fixes

- [DST-18625] 3a. Display Feature Flag in System Parameters - Sampling set to Zero still shows App Insight Data
- [DST-18749] Contact List; returning screen Header not displayed when Contact List closed
- [DST-18758] Register Summary Screen - Filter options not preserved
- [DST-18790] Disabilities and Adjustment - Condition/Adjustment Dropdown options are not displayed in alphabetical order
- [DST-18853] Deep Link for Update Contact Details - Soft Delete Contact ID - Incorrect Error
- [DST-18767] Script to Commence PSS: Pending transfers for IAPS License Conditions are being rejected (when they shouldnt be?)

- [DST-18622]** Mircoservice screens; vertical scrollbar rendered when not required
- [DST-18753]** Delius displayed a white screen when closing Requirement Details screen (Following navigation from Contact List screen)
- [DST-18425]** No IWP Bookmark for - CONTACTLOCATION for Next Appointment
- [DST-18537]** SAR contains rows for 'Null Disability' despite these being hidden in the ND screens
- [DST-18809]** Commence PSS: MASTER_TRANSFER with only one item on it is not being updated
- [DST-18869]** Add system parameter to control Offender_Delta message generation - Table Entry Issue
- [DST-18812]** IPP - Referral to Parole Board script; possible duplication in Notes definition
- [DST-18782]** Commence PSS script: Scenario where the person is released from Custody to commence PSS but their Location is not 'In the Community', needs to be removed?
