

# Release Notes

## Version ND 5.5.10

### New Features

---

- [DST-13274] Change for Pre-Cons/CPS Pack Script
- [DST-13335] Change to restrictions on Update Address
- [DST-13130] Merge of Registration - Update to Active Registration

### Bug Fixes

---

- [DST-13377] CAS Stored Procedure: 'Dynamic RSR score' contact is being created at event level instead of at Person Level
- [DST-13385] CAS Stored Procedure: CAS is now created with scores and levels populated, but the Notes section in the ICAD contact, doesnt display them
- [DST-13359] Github report deployment failures in Stage
- [DST-13376] ICAD and UCAD Contacts Notes are missing the leading zeros for scores < 1
- [DST-13409] Merge Offender; PreCons on Source Offender not being soft-deleted
- [DST-13392] Merge of Registration - Register Review - Next Review Date / Time still shown on Completed Review
- [DST-13373] Merge of Registration - Update to Active Registration - After Merge Notes were added to De-Registration not Active Registration
- [DST-13403] NSI Breach Event dont appear in SNS Queue
