Bug Fixes

- [DST-21436] Add Contact Details: No warning message when linking to terminated component
- [DST-21365] Add Institutional Report - enter only Completed & Allocated Dates + Save yields [APPERR031]
- [DST-21535] Contact Details for a RAR contact shows the value of 'RAR Session Delivered:' as the same content as the field above it (RAR Activity Delivered)
- [DST-21398] Contact Text Search: white screen after clicking the update button against an UPW Appointment Contact
- [DST-21376] Court Diary Committals - Carrying over inapplicable filters
- [DST-21455] Court Report Types Reference Data: Missing Tooltips
- [DST-20846] DMSERR004 error when uploading a document during performance test
- [DST-21378] Diary Pages - error message incorrect when returning more than 100 records.
- [DST-21546] Domain Event for move NSI: contains CRNs as lower case but only if lower case was input
- [DST-20773] Inserting UTF-8 4-byte characters exceeds max limit causing validation error in Event Notes
- [DST-21319] Label for author is displaying document on delete screens
- [DST-21456] Licence Condition Reference Data: Missing Tooltips

- [DST-21320]** Maintain Throughcare Dates - Wrong validation message if Throughcare Date field is empty
- [DST-21447]** National Organisation Reference Data - Clicking close on local admin unit list return to the wrong page
- [DST-21547]** OGRS PDM - ARP Band
- [DST-21565]** Oasys Assessment Summary: Difference between 2 of the field names in the AC Vs the screenshot
- [DST-21451]** Ref Data (NSI Type List) - Missing non-verbose tooltip
- [DST-21443]** Reference Data: Contact Type List missing tooltips
- [DST-20853]** Style of validation message on Diagnosed or Self-Declared? singular field is different from other field validations
- [DST-21371]** Tab naming doesnt match screen titles for Licence Conditions
- [DST-21383]** Untermine Event: Order Supervisor Validation
- [DST-21052]** When I pass spacing and no numbers in offence field then API error triggered

Problems

- [DST-21517]** NSI status contacts - Data Fix
- [DST-21236]** PR351 Incident 3886774
