Release Notes

Version ND 6.0.31

New Features

[DST-17100] RBAC 6.0.3

[DST-17115] PDM 29.09

Bug Fixes

[DST-17131] Display of Button text is feint in Delius

[DST-17091] Selecting Approved Premises Diary displayed an APPERR031

[DST-17094] Select Close on the Drug Test List screen - User stays in same location

[DST-17117] Incorrect tooltip displayed in Case Summary Screen

[DST-17084] Update PSSR; Termination Reason not initialised if Actual End Date is removed

[DST-17076] Equality Monitoring; Gender Identity field missing

[DST-17121] Add UPW Appointment; User returned to UPW Worksheet Summary if Update pressed and Warning confirmed

[DST-17120] Update UPW Project; Cancel leaves User on screen when navigated from Add UPW Project

[DST-17110] Update Drugs Test; closing the screen returns the User to the Drug Test Summary rather than Drug History

[DST-17114] Reset scripts; PSC NSI exclusion check only applied for Events that are included for all other criteria

[DST-17112] Catch-up PSS Reset script; Event has to have Active PSS Requirements in order to be considered

[DST-17075] Conversion of - Unpaid Work - Ref data Pt3b - System Error instead of Validation errors

[DST-17092] Conversion of - SPG Error List and Repurposing - Search Option in Provider field Issue

[DST-17109] Add Event/Amend Event Details: Adding spaces (or leaving blank) as the £ amount saves the event without error

[DST-17046] SPG Message Errors to API Error Messages: Error Category to Include or Exclude finds different results

[DST-17093] Conversion of - National Search - Add Search Contact - Multiple Issues

[DST-17107] Add Event: Remand Status is mandatory (for this add) but missing validation means the event is saved without it

[DST-17087] APPERR031 after Adding a new event and selecting 'Return'

[DST-17101] Update UPW Appointment: Validation on 'Respond By' isnt shown against the field itself

[DST-17116] Case Summary Return button: User remains in the screen if navigated from the Address Search Results and 'Go To This Person record'

[DST-17052] Add Licence Condition: Missing warning for unsaved changes

[DST-17085] Unmerge reports an error : records remain in OFFENDER_MERGE_DETAILS when the OASYS assessment was deleted on Target

[DST-17055] Update Licence Condition: Missing warning for unsaved changes AFTER validation has been triggered

Problems

[DST-16697] PR267 OASys assessment not updated in nDelius when cases merged
