Release Notes

Version ND 5.8.9

New Features

[DST-14944] New action on Save button on Update Contact

[DST-14945] New action on the Update Button on Update Contact

[DST-14963] RBAC for Add Offender

Bug Fixes

[DST-15036] RAR - Able to save the contact (Current Dated) without an outcome - Clarification

[DST-15056] APPERR031 on Add Contact with a RAR Activity session, if truncation is required for the child RAR contact description and the code is 10 characters long (edge case)

[DST-15047] Add Parent and Child RAR contact: Contact Code in brackets is missing from the description of the RAR child contact (when RAR Session Delivered was selected)

[DST-15055] New field on the Update Contact screen - Field Name issue for View vs Update

[DST-15057] New field on the Update Contact screen - System error on Update when both fields on Please Select

[DST-15048] APPERR031 following deletion of the NSI (and therefore the RAR child) and then attempting to delete the RAR parent contact

[DST-15061] Add Contact : New field shows 'RAR Activity session'

[DST-14998] Terminate Requirement does delete future dated RAR (parent and child) but leaves RAR count on NSI
