Release Notes

Version ND 5.8.2

New Features

[DST-14641] NSI Notification - Unterminate NSI

[DST-14640] NSI Notification - Recover a deleted NSI

[DST-14652] NSI Notification - Move NSI

[DST-14653] NSI Notification - Move Event

[DST-14726] PDM 28.14

Bug Fixes

[DST-14656] Record incorrectly listed in GDPR 'Eligible Deletions' screen (in Stage)

[DST-14557] Start Recall Domain Event: Recovering an NSI (which was active when it was deleted) doesnt generate a 'enforcement.recall.raised' event (clarification)

[DST-14700] Stories for Start Recall and End Recall specify to include field name eventNumber but actual is EventNumber

[DST-14563] Domain Events for Start Recall or End Recall: Clarification on Move NSI or Move Event

[DST-14555] Start Recall Domain Event: Unterminating an NSI doesnt generate a 'enforcement.recall.raised' event (story doesnt specify either way for unterminate)
