Bug Fixes

[DST-13986] When an NSI is terminated the last touch Date and Time in the NSI termination contact is wrong

[DST-14019] Address Search Results; value of Sex Offences? column incorrectly calculated

[DST-13929] Case Summary screen: Reordering on Condition, does reorder, but moves the cursor to the Adjustment Type column in the table below

[DST-13936] Equality Monitoring screen/Update Equality Monitoring screen : Reordering on Condition, does reorder, but moves the cursor to the 'Author' column in the table below

[DST-13933] Disabilities and Adjustments screen: Reordering on Condition, does reorder, but moves the cursor to the Adjustment Type column in the table below

[DST-14023] When an NSI is updated the last touch Date and Time in the NSI Commenced Contact is incorrect

[DST-14027] When an NSI is updated and a Contact created relating to the NSI Status, the Last Touch details are incorrect

[DST-13930] Offender Address Search; "NF1 1NF" postcode with either no space or >1 spaces does not trigger button validation

[DST-13818] Visor Extract for LAO Cases: The status always appears as 'Not a VISOR contact' instead of 'Copy to VISOR' or 'Exported to VISOR'

[DST-13975] Address Search Results; Close has to be pressed twice when User returned from View Offender

[DST-14017] Address Search Results; Print button verbose tooltip incorrect

[DST-14016] Address Search Results; number of results Summary not displayed

[DST-13995] Address Search Results; Sex Offences? column is not populated in the Address Searched On section if no Address are matched

[DST-13973] Delete Adjustment: APPERR031 upon confirming the deletion (for a new Adjustment or an older one where the Disability has already been deleted)

[DST-13938] Adjustments - Add Adjustment - No Warning on Start Date before first Contact

Scripts

[DST-13623] ETER Component Terminated allocate missing Licence Condition ID to contact
