Bug Fixes

[DST-12812] Update Address screen - if Start Date and Status Mandatory fields incomplete, only Start Date has a Validation Error

[DST-12941] SAR : A single CPS_PACK is included in Appendix B twice (once under CPS Pack and once under the Document section) same for Pre Cons

[DST-12967] Person-level Document List Print; PreCons and CPS Pack entries included with Sensitivity of N rather than Not Available

[DST-12507] Institutional Report Internal Transfer; Reason for Transfer not displayed on Transfer History screen

[DST-12862] Merge: A document linked to a (moved) Registration is visible in the new Document List screen but not in the Registration details screen

[DST-12874] Update Drug Testing Assessment: Change of Provider only (leaving no team and Officer selected): selection of Update does nothing, a further selection is required

[DST-12873] Update Drug Test: Change of Provider only (leaving no team and Officer selected): selection of Update does nothing, a further selection is required

[DST-12857] 6B: Register Improvement - Un-Merge - Error Calling the UnMerge Stored Procedure

[DST-12964] nDelius deployment conflict with Audit trigger on Insert/Update on USER_ table

[DST-12959] GDPR - Retention (IICSA) - Retained Records - Records being retained incorrectly

[DST-12927] Merge Offenders: When the Source Offender has an AP Referral this appears on the Target but the source is still visible in the AP Diary screens
