

Release Notes

Version ND 6.8.3

New Features

[DST-22141] 4g. Domestic Abuse Registration - Add Registrations - Review Date to be when case is not supervised in probation

Bug Fixes

[DST-22181] ARNS API - Not seeing data in Delius from ARNS API

[DST-22205] Add Court Appearance; new REG_CATEGORY_LEVEL_HISTORY record not created when Domestic Abuse Reg already exists

[DST-22165] Adding Unpaid Work Allocations results in Error Query attempting to match a single entity has returned multiple records. [APPERR034]

[DST-22259] Documentation defect - Additional Identifier domain events formatting

[DST-22123] If JFDA = Yes on an auto terminating sentence, The Registration is created but with no review (as there is no SED)- Clarification

[DST-22186] JFDA Remaining place where sentence date is referred to instead of system date

Scripts

[DST-22250] Update Add Role script to use the linked spreadsheet

[DST-22249] Update the remove role script to remove MAWBT001 from all users
